- [vLex: Vincent Legal AI Assistant](#). Let Vincent review your documents and it'll retrieve all related results and check that your citations are still good law.
- [Emond CLS is now a part of e-LiRN!](#) Emond's award-winning Criminal Law Series provides clear and concise guidance on the practical and procedural aspects of criminal law. Tailored for members of the criminal bar and judiciary, this comprehensive collection addresses specific areas of criminal practice and is grounded in the expertise of General Editors Brian H. Greenspan and Justice Vincenzo Rondinelli. With contributions from both defence and Crown counsel, the series offers a balanced and authoritative perspective on criminal law.

LiRN users will benefit from access to **Emond's Criminal Law Series** on vLex, alongside **Irwin Law texts**, Canadian case law (including the Maritime Law Book), and Vincent AI, enhancing their legal research capabilities.
